The fundamentals of the general AML risk assessment (EWRA)

GOALS

The general AML risk assessment (EWRA) is essential as it enables financial institutions to identify and manage potential money laundering risks they are exposed to. Through a thorough assessment, organizations can proactively implement policies and procedures to remain compliant with regulations, prevent reputational damage, and safeguard financial integrity. It also enables them to efficiently allocate resources to high-risk areas, contributing to an effective fight against money laundering and maintaining the trust of customers and regulators.

The objectives of this training are:

- provide a comprehensive understanding of the principles of risk assessment related to AML;
- share knowledge of relevant regulations and requirements aimed at enabling financial institutions to remain fully compliant;
- indicate how resources should be efficiently allocated to areas with the highest risk, enabling financial institutions to focus their efforts more effectively.

SUMMARY

Category:

- Compliance & audit

Difficulty level:

Advanced

Certification type:

Live webinar

Price:

- Member: € 330.00
- Non member: € 360.00
- Partner BZB: € 330.00
- Incompany: custom tailored, prices on demand

CPD hours:

- Compliance: **3h**

INTENDED AUDIENCE

This training course can be followed by:

- Compliance Officers and their staff;
- Internal auditors;
- Risk managers and employees risk;
- Responsible officers and employees internal control;
- .…

FOREKNOWLEDGE

Advanced level training: this training requires a general basic knowledge of the subject.

CONTENT

CONTENT

- **Context and objective**
  - Exploration of the legal and regulatory landscape related to Anti-Money Laundering (AML) to establish a solid foundation for risk assessment

  - Techniques to determine the inherent risk of certain activities or clients
  - Determination of residual risk
    - Evaluation of the effectiveness of internal control measures in reducing risks
    - Understanding residual risk after implementing preventive measures
    - Practical approach to identifying and managing residual risk

PRACTICAL INFORMATION

- **Duration:** ½ day training (3 class hours)
- **Hours:** 09:00 to 12:30
- **Location:** This training will be given online
- **Language:** This training will be given in English
- **Additional information:** How do you start the webinar? You will receive a login and password by email to access our platform. In the platform you will find a link. By clicking on the scheduled date the webinar will start.

METHODOLOGY

You follow a **'Live webinar'** digitally in a group. It is 'learning-apart-together'. At an agreed time, the teacher and participants log in to a video conference tool, each from his or her own location and with his or her own computer. Via this tool's camera, microphone and chat function, there is an opportunity for interaction and feedback, both from the participants to the teacher and vice versa. The teaching material consists as a basis of a presentation via the MyFA learning platform, supplemented with various other items (such as digital syllabus, presentation, audiovisual fragments, etc.).

Course material: PowerPoint presentation
