

## Investing in Bitcoins or other cryptocurrencies: prudential framework

### GOALS

---

Cryptocurrencies, or cryptoassets, are playing an increasingly important role in the financial system. In this training course, we look at cryptocurrencies from a prudential perspective. The different types of cryptocurrencies, their specific characteristics and the way they work are discussed in detail.

The objective of this training course is to:

- describe the characteristics and operation of cryptocurrencies in detail;
- provide an overview of existing regulations and future developments;
- discuss the impact of cryptocurrencies on AML.

In order to receive training points, it is important to enter your own name and surname in Webex, follow the entire training day and answer the questions suggested by the trainer. Do not follow the training with several people on the same PC.

## METHODOLOGY

---

You follow a **‘Live webinar’** digitally in a group. It is ‘learning-apart-together’. At an agreed time, the teacher and participants log in to a video conference tool, each from his or her own location and with his or her own computer. Via this tool’s camera, microphone and chat function, there is an opportunity for interaction and feedback, both from the participants to the teacher and vice versa. The teaching material consists as a basis of a presentation via the MyFA learning platform, supplemented with various other items (such as digital syllabus, presentation, audiovisual fragments, etc.).
