

Stablecoins, the Digital Euro, and the Future of Money

GOALS

Stablecoins have moved from the fringes of crypto into mainstream finance, transforming payments and liquidity flows worldwide. Europe is responding with euro-backed stablecoins and the Digital Euro initiative, signalling a fundamental shift in monetary systems.

The objectives of this training are to:

- understand the rise and mechanics of stablecoins and their current applications;
- navigate key regulatory frameworks (MiCA and global standards);
- explore the role of banks in issuing and managing stablecoins;
- assess how CBDCs fit into the new ecosystem;
- analyze the roadmap for the Digital Euro and its impact on banking strategy.

METHODOLOGY

You follow a '**Classroom training**' in a group. You, the other participants and the teacher are all present in the same classroom at an agreed time. There is an opportunity for interaction and feedback, both from the participants to the teacher and vice versa. The teaching material consists as a basis of a presentation via the MyFA learning platform, supplemented with various other items (such as digital syllabus, presentation, audiovisual fragments, etc.).

TESTIMONIALS

"Inhoudelijk een goede update van de stavaza in de markt, er werden nuttige inzichten aan toegevoegd, ruimte voor interactie binnen de groep. "
